

CLASSROOM CURRICULUM

PRE-K PM CLASS: MS. NASHA

NOVEMBER 2021

Gardening

Our PM classroom will be planting different seeds and gardening. The group will learn about how to take care of our crops and observe the seeds grow. By reading books, making observations and having discussions we will learn more about the process of growth and how important it is to garden. We will also begin cooking more with food items we grow or talk about.

Learning foundations that the children will meet:

Social and Emotional Development:

Children will be trying to figure out how to take care of our plants and make new observations and take initiative to solve problems.

Literacy:

The children will be able to read a recipe card and follow directions.

Mathematics:

The children will be able to read the recipe cards to determine quantity of items in the food.

Science:

The children will be able to develop curiosity and raise questions about the events in their environment.
